

John Bradley and his son James Bradley

JamesBradley.com

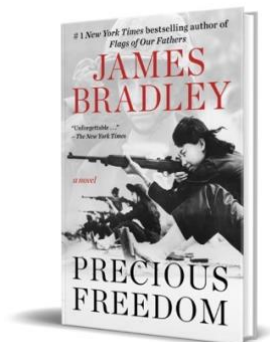

I was in my twenties in the seventies. Now I'm in my seventies in the twenties and being whiplashed into shocking 21st Century news.

The President of the United States and the Secretary of Defense are blowing little Venezuelan boats out of the water piloted by “bad” guys.

What could go wrong?

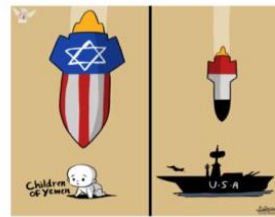

(By the way, who will help me stop Trump from using John Bradley?)

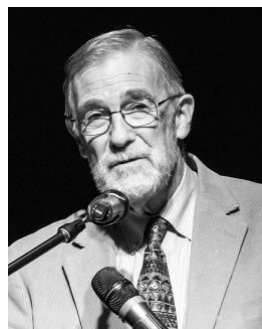

**Read *Precious Freedom* and be warned.
Vietnam? Venezuela? What's the connection?**

The American War in Vietnam started with little boats. Little boats which LBJ and McNamara were thrusting at Uncle Ho. In a gulf no American had heard of. The President lied on television. The Secretary of Defense lied to Congress. It led to the bloody US loss which began the decline of the American empire which we are witnessing today in 2025.

The Houthis trounced Trump and Hegseth. The US military hasn't won anything in eighty years, since John Bradley helped win World War II. Why is "America First" not learning the lessons of Vietnam?

**In my 1960's youth, millions were killed
over political violence. Now it's 2025.**

How many people will die this time?

Get ready for *Precious Freedom* revealing the root of America's 2025 problems.

James Bradley journeyed to Iwo Jima and returned with *Flags of Our Fathers* and now ventures to Vietnam and brings us *Precious Freedom*, where he reveals that, if we'd known what happened in the 1960s in Vietnam, American mothers would never have sent their children to Iraq and Afghanistan. The truth is the best vaccination against great lies.
